

CORPORATE AIRCRAFT USING ANN ARBOR MUNICIPAL AIRPORT

The following aircraft are documented to have used Ann Arbor Municipal Airport during the period of approximately the last 12 months. These aircraft would be banned from further use of the Airport if the proposed degraded Part 150 Study and associated ALP are adopted and approved.

Make	Model	Gross Weight (lbs)	Approach Category	Balanced Field Length (ft)	Visits to AAAP (Note 1)
Beechcraft	Super King Air 300 [BE30]	14,000	B	3,682	3
Cessna	Model 550 Citation II [C501]	13,300	B	2990	78
	Model S550 Citation S/II [C501]	15,100	B	3,430	4
	Model 560 Citation V [C560]	15,900	B	3,160	15
Dassault-Breguet	Falcon 10	18,740	B		3
Fairchild	SA227-AT Merlin IV [SW3]	14,500	B		2
Mitsubishi	MU-300 Diamond [MU3]	15,730	B		1

NOTE 1: One visit reflects a landing and a takeoff (not operation as defined by the tower count) during the period of 1/01/93 thru 2/7/94. Visit count does not include any Canadian-registered aircraft, Ann Arbor-based aircraft, or aircraft that did not register in the Airport log.
